Apa itu Error 404?

Bonus HTTP dan Kode Error

Pesan Error 404 merupakan logikan dari sistem kode status HTTP yang digunakan oleh server web untuk memberikan informasi bahwa permintaan yang diterima tidak dikenali atau tidak dapat dipenuhi. Kode status "404" untuk menyatakan person bahwa halaman yang diminta tidak ditemukan. Meskipun kode status ini biasanya muncul di depan tiga digit secara teknis, namun dalam dunia pengembangan web, istilah "404" sering digunakan untuk menyatakan bahwa sebuah rute dapat memunculkan pesan kesalahan.
